WORKING DATA

Revision of November 1961

WORKING DATA FOR DEMAND ANALYSIS

U. S. Department of Agriculture
Economic Research Service
Economic and Statistical Analysis Division

Working Data for Demand Analysis

The attached tables contain a number of time series frequently used in statistical demand analysis. Although these tables have been prepared by the Demand Analysis Section of the Outlook and Projections Branch, much of the data originates in other Government agencies. Some of the series, particularly those for personal and disposable income for years prior to 1929, are not published elsewhere. The current year figures are preliminary and in a number of instances partly estimated, based on the first three quarters of the year. The material as a whole is not for general publication and the exact status of each series can be ascertained from the appended footnotes.

These tables are revised once a year, usually in November, by the Demand Analysis Section of the Outlook and Projections Branch, Extension 4740. Since some of these data are regularly compiled by other agencies, it is suggested that current revisions of basic data, particularly the estimates of total income and expenditures of the Department of Commerce and the estimates of prices by the Bureau of Labor Statistics can best be obtained directly in publications from those agencies.

FOOTNOTES

- 1/ Total population of continental United States as of January 1, including Armed Forces overseas, excludes Hawaii and Alaska, 1924-59. (Bureau of the Census)
- 2/ Farm population of the United States as of April 1; estimated jointly by ERS and the Bureau of the Census.
- 3/ Total population of continental United States as of July 1, including Armed Forces overseas, excludes Hawaii and Alaska, 1924-59.
- 4/ Excluding Alaska and Hawaii, January 1, 178.6; July 1, 179.8.
- 5/ Excluding Alaska and Hawaii, January 1, 181.5; July 1, 182.8.
- 6/ Old definition; new definition estimate of farm population for April 1, 1960 is 15,635,000.
- 7/ Estimates for 1924-28 by ERS.
- 8/ Bureau of Labor Statistics for 1924 to date.
- 9/ Preliminary estimates; not for publication.
- 10/ Includes all members of Armed Forces, 1924-40; beginning 1941 only those eating out of civilian supplies.
- 11/ Derived from civilian per capita consumption index.
- 12/ Total population of continental United States, including Armed Forces overseas.
- 13/ Currently published by Department of Commerce as a component of the gross national product.
